Objective

Computer Science graduate (2026) with strong foundations in Python programming, SQL, and data structures & algorithms, seeking a Python Developer role to build efficient, scalable software solutions and grow as a backend engineer.

Education

Bachelor of Technology in Computer Science And Engineering, 2022 – 2026
Kalasalingam Academy of Research and Education KrishnanKovil, India
CGPA: 7.39

Board of Intermediate Education, Class XII, *Narayana Junior College* 2020 – 2022
Percentage: 64.3% Anantapur, India

Board of Secondary Education, Class X, *Sri Chaithanya Techno School* 2019 – 2020
percentage: 100% Anantapur, India

Skills

Technical skills
- Python Programming
- SQL
- Data structures & Algorithms
- OOP Concepts

Soft Skills
- Leadership
- Good Communication
- Time Management

Projects

AI Resume Analyzer, *Tech Stack: Python, FastAPI, React.js, PostgreSQL, NLP*
- Developed an AI-powered resume analyzer for ATS score evaluation and resume improvement suggestions.
- Built REST APIs using FastAPI for resume processing and analysis.
- Implemented NLP techniques for skill extraction and keyword matching.
- Designed responsive frontend interfaces using React.js and Tailwind CSS.
- Integrated PDF/DOCX resume upload and parsing functionality.
- Used PostgreSQL for storing user and resume data.

Fake news detection, *Tech Stack: Python, Flask, Machine Learning, scikit-learn*
- Developed a machine learning-based fake news detection system using NLP techniques.
- Trained classification models using scikit-learn algorithms.
- Performed text preprocessing using tokenization, stemming, and TF-IDF vectorization.
- Built backend APIs using Flask for real-time news prediction.
- Designed user-friendly frontend pages for news input and prediction results.
- Integrated dataset handling and model serialization using Pickle.

Certificates

- Hackothon - Active participant
- SQL (CodeChef)
- Java and Data Structures (Code tantra)
